

Neptun wall mounted folding seat Stainless Steel

Very solid and secure Neptun wall mounted folding seat with two legs

The seat itself is an airfilled plastic seat, which has a really good and pleasant sitting comfort and is easily clicked of an on for easy cleaning.

The wall mounted folding seat has telescopic legs, which makes it possible to position it in 8 different positions,

(Seat height 45-66 cm), and thereafter screw it on the wall in the desired height.

Rgd. different wall mountings: See accessories brochure.

The wall mounted folding seat can easily be folded so it only takes up very little space (11 cm), and is therefore very suitable for places where you could wish for some more space to move around when the wall mounted folding seat is not in use.
