

Adjustable Shower Stool

Solid and very stable shower stool, which have been equipped with telescopic legs.

The telescopic legs make it possible to adjust the shower seat from 420 mm to 625 mm in height with 8 different adjustments. This can be done without any tools.

The structure of the telescopic legs and the non-slip rubber feet make sure the shower stool stands very stable.

The shower stool is stackable and is prepared for the mounting of a back rest (easily put on with the help of 4 screws). The back is made of the same strong materials.

You can get the adjustable shower stool in two different widths.

↓As acc. You can get a soft foam cushion. It comes in two widths.
