

## Adjustable Shower Stool With Hole

Solid and very stable shower stool with telescopic legs. Furthermore it has a hole for intimate wash. The telescopic legs make it possible to adjust the shower seat from 420 mm to 625 mm in height with 8 different adjustments. This can be done without any tools.

The structure of the telescopic legs and the non slip rubber feet make sure the shower seat stands very stable.

The shower stool is stackable to store and is prepared for the mounting of a back rest (easily put on with the help of 4 screws). The back is made of the same strong materials. The adjustable shower seat with hole for intimate wash is standard width 500 mm.

<b>Technical Data:</b>	
<b>Adjustable shower stool with hole</b>	
<b>Max. Seat height</b>	625 mm
<b>Min. seat height</b>	420 mm
<b>Max. Total height</b>	770 mm
<b>Min. total height</b>	560 mm
